

THIS MODULAR MAT OFFERS A VARIETY OF OPTIONS

BEFORE USING MATS IN THE WATER – Lay on the lawn / driveway

1. Logos Face up / Bottom Drainage Port Face Down
2. Zip Every Other Zipper so mats Bi-fold. 3 Top Zippers / 2 Bottom Zippers

REMOVAL OPTIONS FROM WATER

INDIVIDUALLY or SMALL GROUPS – Unzip mats individually or into smaller groups for long mat lengths

BI-FOLDING MATS – In the water, unzip every other Top and Bottom zipper. Start at one side, unzip halfway, swim to the other side and finish unzipping. Bi-fold mats in the water or when lifting out from boat/dock. Gravity drains any water through the bottom mesh side facing the water. **Do Not Swim Underneath the Mats!**

OPTIONS TO USE / LAY ON:

FROM THE BI-FOLD POSITION

- Zip All Top & Bottom zippers closed (stabilizes mat)
- Zip the Top 3 zippers and leave bottom half unzipped.
- Place into water and leave as is (most flexible position)

Locking Zipper Head

The zipper pull will click and lock into place when it is flat, facing the rear of the zipper head. Zipper is unlocked if the zipper pull is vertical or laying towards the front of the zipper head.
