

**THIS MODULAR MAT OFFERS A VARIETY OF OPTIONS**

**BEFORE USING MATS IN THE WATER**

**IT IS RECOMMENDED TO ZIP THEM IN ADVANCED SO THEY BI-FOLD:**

- Lay the mats down or stand them up on the lawn or driveway.
- The Fabric side with the Logo is the top side of the mat and will face away from the water
- The black, full mesh side is the bottom of the mat and will face the water
- Using the enclosed yellow zipper pulls, place them onto Every Other Top and Bottom Zipper Head
- Zip close the zippers with the Yellow Zipper pull. They will act as your guide bi-folding the mats.
- Example – On a 12’ Mat Group: There are 3 qty yellow zipper pulls on the topside zippers and 2 qty yellow zipper pulls on the bottom side zippers.

**REMOVAL OPTIONS FROM WATER**

**INDIVIDUALLY or SMALL GROUPS** – Unzip mats individually or into smaller groups for long mat lengths

## **BI-FOLDING MATS –**

In the water, unzip the mats with the yellow zipper pull on every other Top and Bottom zipper. Bottom zippers- Unzip the zipper as far as your arm will allow or halfway. Swim to the opposite side of the mats and pull the zipper all the way open. **Do Not Swim underneath the mats!**

Bi-fold mats in the water or when lifting out from boat or dock. Water will instantly drain from the full mesh bottom side of the mat.

## **VARIETY OF OPTIONS TO USE OR LAY ON THE MATS:**

- From the Bi-Fold Position:
- Place mats directly into the water and leave as is (most flexible position)
  - Zip the top 3 qty zippers closed and leave the bottom 2 qty zipper unzipped
  - Zip the 3 qty Top & 2 qty Bottom zippers closed (mat is stabilized)
